

BONDING SYSTEMS

ALL-IN-ONE

HEALBOND MP
single-component

2-STEPS

HEALBOND MAX
2-components

MULTI-INDICATION

Direct & indirect restorations

UNIVERSAL

Powerfull shear bond strength to tooth structures, ceramic, metal and zirconia

MULTI-MODE

Self-etching, selective etching or total etching

COMPATIBILITY

Use within ELSODENT product range WITHOUT ACTIVATOR for dual-mode.

BIO+

Formulation without addition of TEGDMA, HEMA, or endocrine disruptors BisGMA or BPA

> TESTS RESULTS

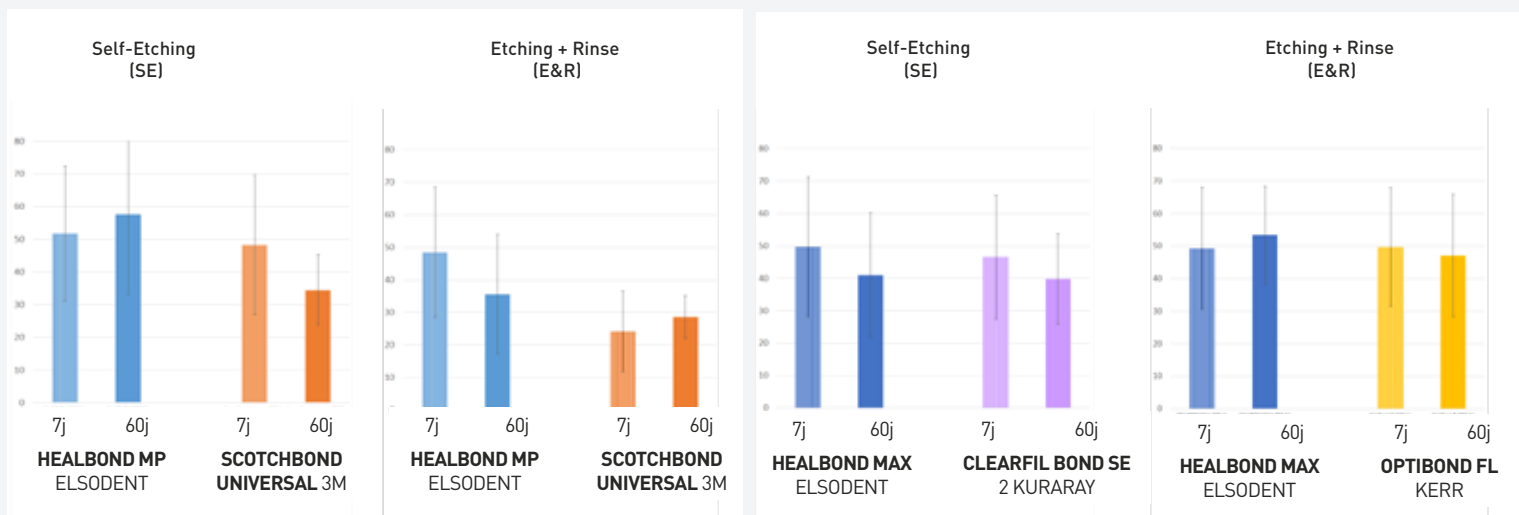

Premium products with innovative formulations whose clinical performance has been demonstrated by tests carried out in world-renowned universities.

Pr Bart Van Meerbeek
KU Leuven BIOMAT

Bonding effectiveness on dentin of ELSODENT bonding systems HEALBOND MP & HEALBOND MAX

1 week & 2 months (50 000 cycles) values in distilled water. By Micro-tensile bond-strength (μ TBS) testing. Data extracted from report KU Leuven BIOMAT, Van Meerbeek et al., 2020.

> DENTIST OPINION

"I have been using HEALBOND MP for 2 years, for my direct restorations and, without the addition of an activator, in combination with INNOCEM for cementing indirect restorations, and with CORE D, for core build-up. I switched to HEALBOND MAX 6 months ago for some indications, such as composites at the collars, still with the same level of satisfaction: no staining of the joints, no postoperative sensitivities."

Dr Christian Moussally
Paris

> BIO +

Formulations without addition of **TEGDMA**, **HEMA**, or endocrine disruptors **BisGMA** or **BPA**.

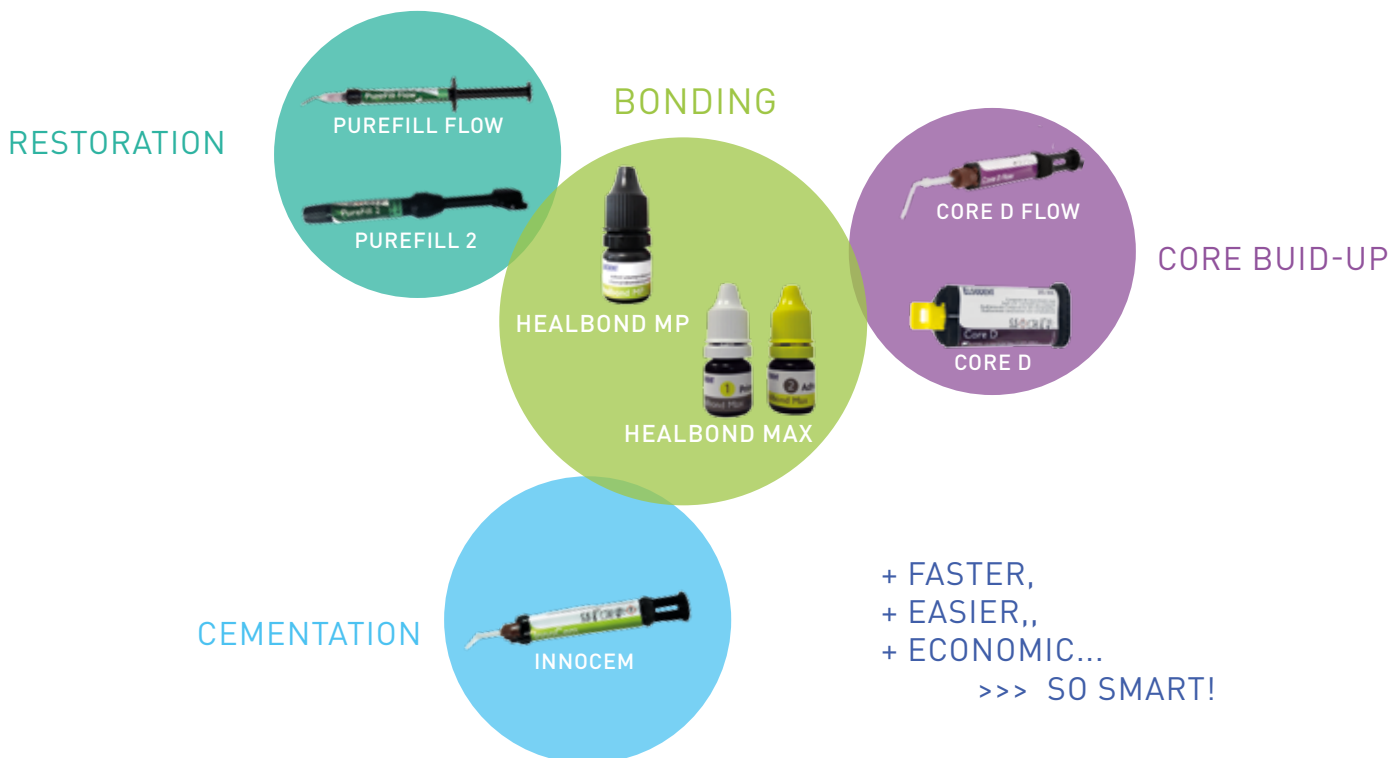

For dental products with innovative formulations, more respectful of patient health, developed without the addition of potentially toxic resins such as TEGDMA, HEMA and BisGMA. Biocompatibility is the core of our research!

> SMART

MULTI-INDICATION WITHOUT ACTIVATOR

Within ELSODENT product range, bonding systems HEALBOND MP & HEALBOND MAX can be used without activator whatever is the material: light-cure, self-cure, dual-cure composites and universal resin-cements.

> MADE IN FRANCE

For 25 years ELSODENT has been developing and manufacturing, exclusively in France, a complete range of premium dental products, with innovative formulations, high clinical efficiency and improved biocompatibility. A single site, integrating the R&D, production and logistics departments based close to Paris (France).
